

HSO Store Stock & Ship

Leverage your POS solution to ship packages out to customers swiftly

- **Are you experiencing issues with last season’s stock building up in the current Covid-19 situation?**
- **Why not use your stores to ship stock swiftly to your customers?**

Microsoft Dynamics 365 POS clearly shows in-store teams what needs to be shipped. There is no double picking and orders are updated automatically in the background to keep your customers fully informed of progress by sending automatic trigger emails. The solution works with collection company integration if required.

Benefits

- No double picking required
- Customers stay fully informed at each stage of process
- Back office system updates automatically
- Collection company integration if required
- Email notifications to customers at every stage

Unlock your ability to create new products & services
